Jeff, Michelle, and Kendall,

My apologies for running right up against the deadline for submission of these materials today. We had two power outages yesterday due to winds, and that disrupted our communication and ability to write or share files.

The attached documents either satisfy the requirements of the additional information and/or documentation for the Sky Valley Corrective Action Plan that we previously indicated would be provided by this date (June 9th), are in response to the June 2, 2016 Snohomish County Health Department letter, or are simply additional information provided in conjunction with the PCB abatement or IAQ remediation underway at Sky Valley Education Center.

The primary document is titled "LTR to SCHD & EPA re PCBs at SVEC (06 09 2016); the other attachments are outlined in that communique.

Please do not hesitate to contact me for questions or clarification.

John Mannix
Assistant Superintendent for Operations

200 E. Fremont Street
Monroe, WA 98272
